Objective

BS Information Technology student at Central Luzon State University and University Scholar, with hands-on experience designing and building web and mobile platforms for real users. Skilled in PHP, Laravel, React, JavaScript, Python, and Node.js, with a focus on web development and software engineering, and a record of working in team-based projects from planning through deployment. Eager to apply full-stack web development, UI/UX design, and quality assurance testing and grow as a developer through an on-the-job training placement.

Education

Central Luzon State University — Science City of Munoz, Nueva Ecija
Bachelor of Science in Information Technology, System Development — *Expected 2027*

- Candidate for Latin Honors (Cum Laude)

Projects

SafeCLSU: Emergency Reponse System | *FLutter, Next.js, PHP, FastAPI, Firebase* — 2026

- Led a 3-member development team in designing and developing a university-wide emergency response platform for CLSU, consisting of a web portal and Android mobile application
- Developed interfaces supporting incident reporting, photo and video uploads, GPS-based location tracking, and an administrative dashboard for incident assessment and responder dispatch
- Designed the UI/UX for both web and mobile interfaces, focusing on usability, accessibility, and efficient emergency reporting

iTour: Tourism Mobile App | *Android Studio* — 2025

- Android tourism app with maps, attraction listings, and bookings
- Contributed to UI/UX design and frontend development of an Android tourism application featuring interactive maps, tourist attractions, and booking functionality

HogTrackerL Livestock Management App | *FlutterFlow, Firebase* — 2025

- Android app that replaces manual hog farm logs with real-time records
- Contributed to UI/UX design and frontend development of a livestock management application designed to streamline farm operations
- Helped develop interfaces for livestock weight tracking, feed inventory monitoring, sales pricing, and role-based access management

Certifications

AWS Academy Graduate - Cloud Foundations – Amazon Web Services (AWS) — Oct 2026
Creating Compelling Reports – Cisco Networking Academy — Mar 2026
Introduction to Modern AI – Cisco Networking Academy — Apr 2026
IT Customer Support Basics – Cisco Networking Academy — Mar 2026
Security and Connectivity Support – Cisco Networking Academy — Mar 2026

Technical Skills

Development: PHP, JavaScript, Python, Dart, SQL, C/C++ (Embedded), React, Laravel, Tailwind CSS, Node.js, Vite
Frameworks and Libraries: Bootstrap 5, Express/Node, Pandas, NumPy, Seaborn, Bokeh
Developer Tools: Git, GitHub, VS Code, Figma, Composer, AWS (IAM / Cloud Foundations)
Soft Skills: Team Leadership, Scrum, Documentation, Communication, Time Management, Adaptability)

Leadership and additional experience

Builders of Information Technology Society (BITS), Active Member | *Sergeant at Arms* — 2026 - Present

- Maintained event order, venue safety, and smooth logistics for department-wide events and student activities.
- Served as an adaptable cross-functional support lead, assisting event committees with setup, operations, and technical coordination from planning through tear-down.
